

Servicing & Repairs

ON SITE SERVICING

Don Valley Engineering Co Ltd can provide on-site equipment servicing to coincide with planned plant maintenance or shutdowns to ensure minimal downtime and disruption to your business. All our onsite personnel have safety passports and are experienced with all aspects of site work and are constantly trained to the latest regulations. Talk to us about service contracts, inspections or emergency maintenance.

SERVICE EXCHANGE EXCITER UNITS

Don Valley Engineering Co Ltd offers an excellent service exchange programme for most types of screen exciter units. This allows our customers to change out the exciter units with minimal shut down time and disruption to production. In addition to this major advantage our customers then only pay for the parts and labour used to overhaul the old unit. We have a large customer base that regularly takes advantage of this service exchange programme. Don Valley Engineering Co Ltd carries all the major exciter unit sizes in stock and can supply site specific spares if required.

SPARE PARTS

Don Valley Engineering Co Ltd have a full time dedicated Spare Parts Department that will give free advice on all your needs and requirements for screens and centrifuges. With many years of experience Don Valley Engineering have an excellent knowledge of all spare parts and consumables that may be required and hold a large stock to ensure that our customers can minimise the potential for downtime.

REPAIRS AND OVERHAULS

Don Valley Engineering Co Ltd can offer excellent engineering facilities at it's works in Doncaster when major repairs and overhauls are required. Don Valley Engineering Co Ltd have a full time service and installation department to install/remove any plant that may require workshop overhaul or repair. This allows Don Valley Engineering Co Ltd to offer a "Start to Finish" service and total project management throughout.

Don Valley Engineering Co Ltd can offer the highest quality and cost effective repairs/overalls to the whole range of their equipment. No matter how big or how small each repair/overhaul is treated individually and closely monitored from "Start to Finish".

***Don Valley Screens and Centrifuges -
