About

- The DVE steep outlet valve is designed for use on steep tanks emptying into barrows or chariots
- It's design allows rapid operation with total control of product flow out of the tank
- The special valve stem and seat ensure water tight sealing
- The hinged keep plate facilitates rapid opening and closing, and control when emptying grain from the tank
- Can be supplied to fit any flange pattern
- Bearings and bushes carry all moving parts
- Full bore opening

Benefits

- Bespoke design
- Robust construction
- Stainless steel body for hygiene and corrosion resistance
- Easily replaceable main seal
